BORN IN PETTIS COUNTY

**BOND COMPANIES, LONG "DEAD,"
NOW PAYING UNLOOKED-
FOR DIVIDENDS.**

DUPE TO GET SOME OF THEIR MONEY BACK

Investors in the Colonial Security Company and the American Investment Company Hear Cheering News.

The old Pettis County Investment company, the successor of which was the Tontine Investment company, the latter company's successor being the Colonial Security company, and all three of which are as dead as a mackerel, were written of as follows in the Kansas City Times of yesterday:

Persons who purchased a bond from the Colonial Security company of St. Louis, or the American Investment company of United States "get rich quick" concerns, six or seven years ago, and later gave up all hopes of ever securing any money on it when these companies went into the hands of receivers, will be paid a part of their claims.

The totals of these claims are two million dollars against the Colonial Security company and \$1,870,000 against the American Investment company. About \$150,000 of this was carried in Kansas City. The Colonial company is now paying a dividend of 25 per cent and the North American of 20 per cent. A second dividend of 5 per cent will be declared later.

In 1905 there existed three companies in the United States that issued bonds ranging in denominations of \$100 and up, for which persons paid small amounts weekly. If these payments were kept up at the end of a specified time they were to receive \$100. If the payments were not kept up they forfeited the amount already paid. When the payment had reached a certain amount, the owner had a right to borrow on it. These companies were The American Reserve Bonding company, of Lexington, Ky., the Colonial Security company, of St. Louis, and the North American Investment company of Chicago. The three companies attempted to merge under the name of the American Reserve Bond company in 1905.

About the same time litigation began, claims were filed in both the Missouri and Illinois courts from August 1, 1907, until March 2, 1908. The creditors were scattered throughout the United States and Canada. There were then 27,000 claims, amounting to \$4,000,000. When the audit was finished 22,000 claims remained and about \$1,200,000 to be distributed on this first dividend. Suits to collect some of the assets are still pending.

The securities have been made to earn enough during the administration to pay all the expenses of the administration, and the creditors will get more in dividends than the entire original assets that went into the hands of the receiver, something very unusual in bankruptcy proceedings.

"I have already sent out 6,800 checks," T. J. White, of Kansas City, Kas., auditor, said last night. "These go to all parts of the United States and are for widely varying amounts. It will be a year before the affairs of the company are wound up."

A syndicate calling itself the bond holders' committee bought up many of the claims and collected them. The claims held by these persons were turned over to the Pioneer Trust company of this city and are being paid by it.

The Colonial Security company, of St. Louis, was a successor to the Tontine Investment company, which in turn was a successor to the Pettis County Investment company.

POPULATION OVER 25,000

New City Directory Has 2,000 More Names Than Ever Before.

The new city directory, compiled by the Dunham Directory company, is off the press and will be prepared for distribution tomorrow. The directory is the most complete and perfect ever published in Sedalia.

It includes the names of every male over 16 years of age in Sedalia, also the given name of every married lady and the name of every female person over 16 years of age.

There are something like 12,900

names in the directory, or 2,000 in excess of any previous directory. Taking the book as a basis, it is estimated that Sedalia's population today is a little more than 25,000. Postmaster Coddling has held to these figures for some time, and the work of the directory people is corroborative of his estimate.

In the rear part of the book is a directory of all residents in the county outside of Sedalia. The book also contains a list of streets, alphabetically arranged, the name of every lodge and time of meeting and other information of a general nature.

The book was printed by the Sedalia Printing company, and is a splendid specimen of typographical art.

A JOKE ON "NEWLYWEDS"

SOMEONE'S PERVERTED SENSE OF HUMOR EMBARRASSED THEM GREATLY.

PUT ADVERTISEMENT IN A NEWSPAPER

Saying That Five Negro Laundresses Were Wanted by the Bride, and Her Hotel Was Besieged by Callers.

St. Louis, Mo., May 21.—Negro women in droves of five, seeking Mrs. Rose Bopp, the bride of William Bopp, manager of the Harrison Paint Co., Kansas City, yesterday almost blocked traffic in the vicinity of 2701 South Seventh street.

Some practical joker, probably unaware of an ordinance passed some two months ago, making such an act punishable by a fine of \$100, had celebrated the Bopp-Miller nuptials, which took place yesterday, by inserting in yesterday's issue of a morning newspaper this advertisement:

"Wanted—Five colored laundry women. Apply at 3 p. m. Thursday at 2701 South Seventh street.—Mrs. Bopp."

Mrs. Margaret Miller, mother of the bride, appointed herself head of a diplomatic corps to pacify the callers.

MR. C. C. LAWSON AT MOBERLY

He Addressed the Retail Merchants' Association.

C. C. Lawson, secretary of the Merchants' Home Industry association, returned this morning from Moberly, where he was given a rousing reception on the occasion of an address made at Noonan's hall last night at a banquet given by the Retail Merchants' association of that city.

Mr. Lawson was met at the train Thursday by a committee of the association. During the afternoon he was taken over the city in an automobile, and last night delivered his address, which was followed by a banquet.

John O'Keefe, one of Moberly's most influential wholesale merchants, in speaking of the address, said that Mr. Lawson's talk did more good for the town than anything that had been said there in the past ten years.

Two hundred people attended the banquet, representatives being present from Sturgeon, Huntsville and other neighboring towns.

A HAT TRIMMING CONTEST

Was a Feature at Entertainment of the "C. O. H." Club.

Arthur Sterling and John Blatterman were hosts to the members of the "C. O. H." club at the home of G. H. Blatterman, Twenty-sixth street and Kentucky avenue, last night. Twenty guests attended.

In a hat trimming contest Norman Stevens won the gentlemen's prize, a souvenir hat, and Miss Bessie King won the ladies' prize, a picture, for being the most efficient artist.

Refreshments were served.

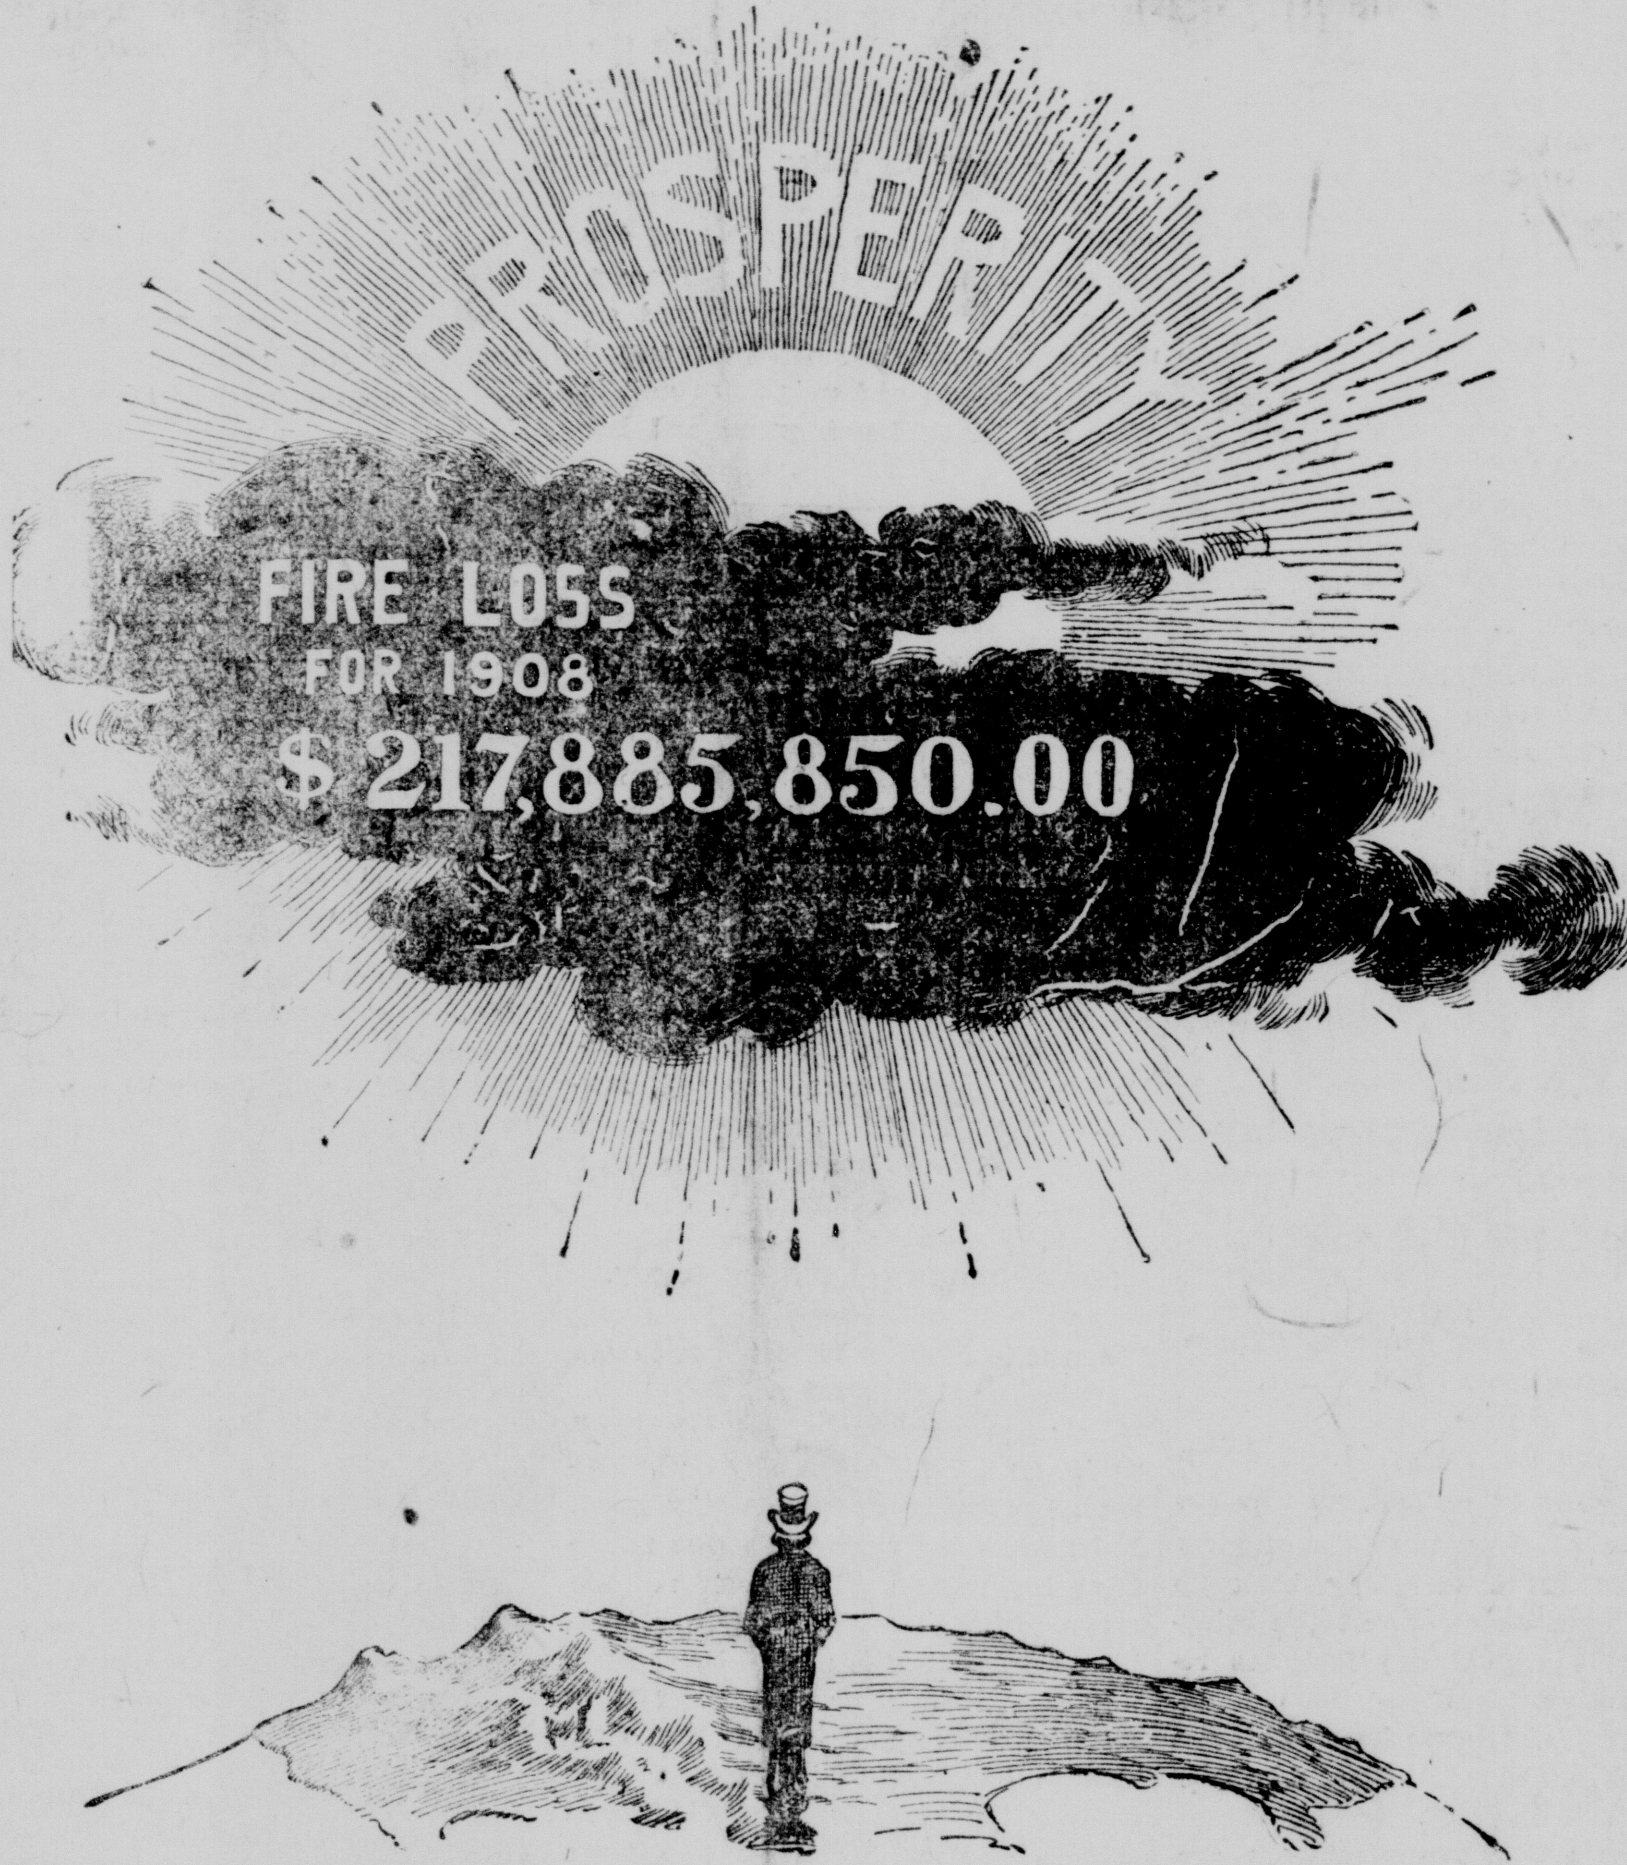

NEGRO ASSAULTER CAPTURED

Excitement Is Intense and Lynching Is Fully Expected.

Muskogee, Ok., May 21.—The negro who assaulted Mrs. Cole, a 17-year-old bride, at her home near Sharp, Ok., Wednesday, was captured at Weleetka today and placed in jail.

Excitement is intense, and it is expected that the threats to lynch the negro will be carried out tonight.

GOULD LINES ARE HEARD

APPEAL MADE TO STATE BOARD FOR A REDUCTION IN ASSESSMENT.

RAILROADS HAVE NOT HAD SQUARE DEAL

Claim Is Made That Assessment of the Roads Has Been Increased a Mile and Farm Lands Only One Dollar an Acre.

Jefferson City, Mo., May 21.—The Missouri Pacific, Missouri, Kansas and Texas, Burlington, Kansas City Southern, Atchison, Topeka and Santa Fe and other large railroads were heard by the state board of equalization yesterday.

The Missouri Pacific system, including the St. Louis, Iron Mountain and Southern, made a request for a reduction in the valuation of the main line property in Missouri. It was valued last year at \$21,000 a mile, which is too high, they claim, when conditions are considered.

A. C. Butterworth, its tax representative, claimed in a statement made before the board, in support of the plea for a reduction, that the falling off in earnings of the Missouri Pacific this year, compared with last, will be about \$2,000,000, and the deficit for the year in earnings on the Iron Mountain will be about \$3,000,000.

Representatives of other roads made pleas against any increase in taxation values, chiefly on the ground of bad conditions for the railroads which affected their earning capacity and because railroad property is now assessed out of all proportion to the valuation of farm lands for taxation.

It was shown in the course of the hearing that the valuation of farm lands in Missouri for taxation has been increased but a little over \$1 per acre in the past ten years, while the actual value has increased more than 100 per cent.

On the other hand, trunk line railroad property has been increased \$2,000 per mile in the state during the past decade.

The railroad men here were: A. C. Butterworth, tax commissioner of the Missouri Pacific; C. S. Sherwin, tax commissioner of the Missouri, Kansas and Texas; W. W. Baldwin, assistant to the president, and George N. Mills, tax commissioner of the Burlington lines; S. W. Moore, general attorney of the Atchison, Topeka and Santa Fe, and George C. Ward, tax commissioner of the Kansas City Southern and Independence Air line.

Building New Telephone Line.

Shields R. Smith, manager, and J. H. Chaney, contract agent, for the Bell Telephone company, after spending a day in Hughesville and surrounding country, secured quite a number of subscribers to the Bell system.

Today a force of men was put to work building lines to Hughesville, and Manager Smith states that service will be started to subscribers in that vicinity within ten days.

Street Sweeper Not Out Today. D. A. Landes, the one-arm street sweeper, was not put to work on the streets today, being confined to the corridor of the city bastille.

TO TOP OF SMOKESTACK

A "STEEPLE JACK'S" PERILOUS TRIP VERY NEARLY ENDED FATALLY.

HE FAIRLY FLEW 150 FEET UP INTO AIR

Was to Be Drawn to the Top of Stack, But Mechanism Did Not Work Properly and Had Narrow Escape From Death.

St. Louis, May 21.—Edward Schneider, seated in a small swing, was shot at terrific speed 150 feet up into the air yesterday and was saved from being hurled into space and death only by grasping a hook at the top of the smokestack of the Union Electric Light and Power Co.'s plant.

Schneider and Charles Kinsey are painters and are employed in painting the smokestack on Wash street.

Yesterday morning Schneider was to go up to the top of the stack and paint downward. Schneider seated himself in the swing and Kinsey stood by the "nigger" to operate it.

At the word from Schneider, Kinsey started the machine, but his glove got caught in the mechanism and turned it on to full speed.

Instantly the swing shot upward at a terrific speed. When it reached the top of the stack Schneider was jerked out of it.

Instinctively, he threw his hands out. His fingers clutched a hook at the top of the stack, over which ropes are thrown. His hands were mangled by the sharp metal, but he held on until rescued.

President Back in Washington. Washington, May 21.—President Taft and party arrived from Charlotte, N. C., this morning.

SCANDAL IN OHIO 'HOME'

ENGINEER IS PLACED UNDER ARREST ON COMPLAINT OF A YOUNG GIRL.

CHARGED WITH BEING FATHER OF CHILD

Most Estimable Young Man Had Been Wrongfully Accused—Another Chapter in State Industrial Home Scandal.

Columbus, Ohio, May 21.—Charged with the paternity of the child of Ellen Grill, an inmate of the State Industrial Home at Delaware, the engineer of that institution, A. E. Layton, has been arrested by a constable attached to the court of Justice McCormick, of this city, and arraigned.

His hearing was postponed until next Wednesday, and he was released on \$500 bond.

The girl is at present in the Florence Crittenton home, where she was received last month with another inmate, who was in the same embarrassing condition.

At that time Governor Harmon ordered an investigation instituted, sending for Superintendent Dye. Nothing came of the inquiry apparently, and it was announced that it was not known who was the author of the mischief.

The arrest of Layton indicates that all the truth was not told. If the Grill girl is to be believed the hunt for parties on the outside was a false scent.

It will be remembered that a very estimable young man, who is a member of the Troy (Ohio) band, was compelled to undergo an examination at the hands of the trustees as a suspect.

It turned out that he had never been at the institution but once, and then in company with relatives. Layton entered a plea of not guilty, and asserts that he is innocent.

RECEPTION FOR A VISITOR

Mrs. Maud G. Moore Met With Ladies' Auxiliary Last Night.

Mrs. Maud G. Moore, of Stratford, Ontario, Canada, grand vice master, who arrived here yesterday morning as the guest of Mrs. J. A. Leach, after having attended the state meeting of the Brotherhood of Locomotive Firemen and Engineers and its auxiliary at Nevada, Mo., was entertained at the home of "Dad" and "Mother"

Leach during the day, and last night met with the ladies of the local auxiliary at their hall, when a most royal welcome was extended. At the conclusion of the reception Mrs. Moore made a splendid talk for "the good of the order," her remarks commanding the closest possible attention of her auditors.

Today Mrs. Moore is the guest of Mrs. Thomas Killion, vice president of the state auxiliary, and tonight she will be called upon by the members of the local division at the Killion home, 504 East Third street, when "Mother" Leach, on behalf of the auxiliary, will present her with a beautiful souvenir spoon as a memento of her visit to the Queen of the Prairies.

DOING WALKING "STUNT"

ST. LOUIS STUDENTS TO FOOT IT TO THEIR HOMES WHEN SCHOOL CLOSSES.

THIS GOOD METHOD OF CURING "BRAIN FOG"

Three Young Men Attending the University of Missouri at Columbia Will Walk to Their Homes at Joplin.

St. Louis, Mo., May 21.—Walking as a cure for brain fog is a plan adopted by St. Louis students, fifty of whom have agreed to walk from the different St. Louis colleges to their homes when school closes.

One of the students at Washington University, when asked about the proposed trip, said that walking is not a new wrinkle among the boys, and that they haven't the "Weston fever" because the veteran walker passed through St. Louis.

"It is an old thing, the boys consider it part of their vacation and go on the tramp every year," he said. "It is the best kind of way to get exercise and rid one of brain fog that results from a hard year of study."

W. M. Rozan, H. O. Smoot and Prentiss Reeves, students of the University of Missouri, have announced that they will walk to their homes. They live in Joplin, Mo., and the distance is about 250 miles.

TROUBLES ARE PATCHED UP

Reconciliation Is Effected by Separated Couple.

W. L. Davis, a Missouri Pacific passenger brakeman, residing at St. Louis, accompanied by his wife, left at noon today for Pacific, Mo., where Mrs. Davis will remain temporarily. Mr. Davis and wife are the couple referred to in Wednesday's Democrat-Sentinel as having separated two years ago on account of objections on the part of the lady's relatives to Mr. Davis.

Mr. Davis heard nothing from his wife until Tuesday, when he received a telegram from her, saying she was dangerously ill with appendicitis in the M. K. & T. railway hospital in Sedalia and requesting his presence at once.

Mr. Davis arrived Tuesday night and a reconciliation has been effected. As soon as Mrs. Davis recovers she and her husband will go to St. Louis and resume their married life.

STATE TAKES AN APPEAL

Circuit Attorney Jones, of St. Louis, Objects to Ruling of Judge.

Kansas City, Mo., May 21.—Another step was taken by the state of Missouri today to restrain the railroads in the state from restoring the 3-cent passenger fare, when Jephtha Howe, of St. Louis, representing Seebert Jones, circuit attorney of that city, filed in the federal court here an appeal from the recent decision of Federal Judge McPherson continuing in force a temporary injunction restraining the circuit attorney from prosecuting an injunction suit against the railroads.

The appeal is based upon allegations of error in the ruling of Judge McPherson.

Not a Case of Diphtheria.

Lee Groth, jr., son of Lee Groth, a Missouri Pacific engineer, is ill with a severe cold, under the care of Dr. M. T. Collins. It was reported to be a case of diphtheria, but Dr. Collins emphatically denied that statement.

NEGRO FIREMEN MOBBED

GEORGIA RAILROAD APPEALS FOR GOVERNMENT TO INTERVENE IN STRIKE.

MAY SPREAD TO ALL THE LINES IN SOUTH

Much Feeling Aroused By Placing Colored Men in Positions of Seniority—The Situation Is Quite Alarming.

Atlanta, Ga., May 21.—Violence at a dozen points in Georgia has been offered the negro firemen who have replaced the Georgia railway white firemen, now on strike, and the situation is daily growing worse, as the people along the road are becoming more particular in the matter.

The white firemen have made the issue that the Georgia road has put negroes in positions of seniority and is practically driving white men out of work. This stand has appealed strongly to Georgians and has brought them numerous sympathizers and co-workers.

At Deering, Ga., a negro fireman was attacked, dragged from the cab and beaten up, and it is now feared that he will die.

At Thompson, Ga., the home of Thomas Watson, a negro fireman was pulled from the cab and told to "make tracks." He has not been seen since.

Charging that the strike was delaying the mails, the Georgia railroad yesterday appealed to the United States district attorney for an investigation and government intervention. A probe of the situation is now being conducted.

Vice President Ball, of the strikers, has issued a call to the chairmen of the joint boards representing all the systems now working in the south to be in readiness to convene in Atlanta to call out all the white firemen in the south so as to make the issue a national one against what he terms "negro supremacy."

HE ONCE LIVED IN PETTIS

The Rev. Earle Wilfley, Who Lectures Here Tonight.

The Rev. Earl Wilfley, pastor of the First Christian church in St. Louis, who lectures at the Fifth Street M. E. church, South, at 8 o'clock tonight, under the auspices of Sedalia court No. 39 Tribe of Ben Hur, was a resident of Pettis county more than thirty years ago.

The Rev. Wilfley came in this morning, and during the day drove out six miles north of Sedalia, near Thornton's ford, on Muddy, where his father, Redman Wilfley, once owned a grist mill.

The elder Wilfley is now 82 years of age, and is a resident of Kansas City. He is a native of Tennessee, but was one of Missouri's earliest settlers. He resided in Pettis county several years, but left here with his family 32 or 33 years ago.

The son, Rev. Wilfley, is one of Missouri's ablest divines, and those who hear his lecture on "Ben Hur" tonight are assured a rare treat.

"ADAM GOD" ON TRIAL

Religious Fanatic Who Led in Fatal Riot Is Before Jury.

Kansas City, Mo., May 21.—The jury to try James Sharp, or "Adam God," for the killing of a policeman in a religious riot here last winter, in which five persons lost their lives, was secured today and the state opened its case.

Holding his Bible in his hand and frequently referring to it for guidance, Sharp announced to the court that contrary to his previous intentions, he would not testify in his own behalf.

"I am at peace with God now," he said, "and there is nothing I could say; but if God tells me to testify before my trial ends, I will. It's all with God. Even if I spoke in my own behalf, God would be working in me, and things I said would merely be words of God passing through me."

Peter Murphy Arrested.

Peter Murphy was arrested today for intoxication, Fred Robertson, assistant chief of police, making the arrest. Murphy will be arraigned before the tribunal of justice tomorrow.

COMING HOME?

Back to Sedalia, the beautiful Queen City, and visit again the scenes of years gone by.

The Home Coming reunion will be held October 2, 3, 4 and 5, during the week of the Missouri state fair.

The semi-centennial of the founding of the city will be celebrated, and a grand welcome will be extended to all who gather to commemorate the event.

There are ex-Sedalians everywhere, but they will all be here again at the Home Coming.

CORPORATION TAXATION IN NEW ENGLAND.

One of the most interesting documents to students of taxation contributed in some time is the report of the commissioner of corporations on the taxation by states of manufacturing, mercantile transportation and transmission companies.

The report covers six New England states and shows a wide diversity in both the theory and practice of taxation. In some states corporations are taxed on property. In others on incomes, or a combination of both, while in still others capital stock, either par or market value and occasionally mileage is made the basis for state taxes. Railroads are among the heaviest contributors. Note the radical differences which mark the various systems in New England states. In Maine they are taxed at a graduated percentage of gross transportation receipts; in New Hampshire, on property through a state board, as in Michigan; in Vermont, upon gross earnings; in Massachusetts, upon their "corporate excess" (market value of stock less amount of property taxed locally); in Rhode Island, on real property by the local authorities; in Connecticut, on the sum of bonded debt and market value of stock.

Massachusetts is the only state that succeeds appreciably in an effort to collect taxes from manufacturing and mercantile corporations, and applies the same system as used for railways, namely, "corporate excess." From this source the state receives \$2,000,000 annually, which defrays a snug portion of the yearly budget. Massachusetts has the most thorough and scientific, and best administered taxing system of any New England state.

It is interesting to observe what percentage of the expenses of state government is collected by the various states in this group by special taxation of corporations. In Maine the amount is practically half the to-

tal expenses, being about \$2,500,000. It costs New Hampshire a little more than a million dollars a year for state government, and corporate taxation yields but a fourth of the amount. Vermont spends a million and a half annually and the full amount is collected from the corporations and by other special taxes. The people pay nothing.

The budget in Massachusetts in 1907 was approximately \$13,500,000, and the receipts from special taxation of corporations were a third of this large sum.

Rhode Island has an odd system of taxing corporations locally and also specially. From the latter source last year the income was about \$900,000, while the local portion, both corporate and individual, was about the same, the balance of the total of \$2,153,000 being obtained from special revenue.

Rhode Island gets less than 40 per cent of its income from corporations and the state treasurer, in his last report, calls attention to the urgent necessity for more revenue.

Connecticut is one of the banner states in the taxation of corporations, raising four-fifths of the \$3,500,000 required for state expenses from them. Of the \$3,000,000 paid by the corporations, \$1,000,000 came from the railroads, \$500,000 from the savings banks and over \$1,000,000 from insurance companies.

The city house cleaning crusade which was inspired by the women of Washington, D. C., produced results that are worth having. It appears that 3,705 vacant lots have been cleaned, 500 private alleys put in order and 10,000 cellars, backyards and wood sheds made tidy since the work was inaugurated last month. It is proposed to make the movement something more than a spurt, and efforts will be made to preserve the improved conditions throughout the summer. The work of spring cleaning for municipalities has spread widely throughout the country, having first become established in the west, and now many eastern cities and towns promote community efforts of this sort. It is not only well to have what are public eyesores done away with in this fashion, but the cleaning up policy has its bearing upon public health as well. It is good to see a homely first duty of this kind attacked in the organized way which makes such betterment most effective.

Ft. Wayne Manufacturers Oppose Bringing New Plant There.

Ft. Wayne, Ind., May 21.—A dozen manufacturers of Ft. Wayne, who are employers of great numbers of girls have decided to forcefully back up their resolutions to oppose the bringing to this city of any factories requiring female labor.

They say girl labor here has been exhausted, and that 1,500 could easily find work in the city.

Another set of manufacturers are backing a proposition of bringing woolen mills here, and the feeling is intense regarding the matter.

PRETTY BLACK HAND QUEEN

With Gang of Followers Reaps Harvest Among Timid Italians

Monessen, Pa., May 21.—A buxom Italian lass, who has been seen, and who writes her Black Hand threatening letters in a fine hand, and signs "Queen Artola," has, with the aid of a half dozen bad-looking Italians at her back, been doing a land-office business in collecting money from timid Italians with bank rolls here.

Michael Giba, one of the rich young merchants of the valley, has been the latest to leave \$200 under a designated stone when called on to do so by "Queen Artola" by letter.

This was yesterday, and the young woman was seen to come out of the woods herself and get the money, while a crowd of men remained on the edge of the wood. Giba has armed a dozen friends and neighbors and is after the Black Hand queen and her gang.

FIRST DAY OF HONEYMOON

Celebrated by Two Attempts to Kill Himself.

Pittsburg, Pa., May 21.—Harry Hurlle, aged 26, of 1109 Rebecca street, North Side, was married to pretty Cora Kline Wednesday night, and yesterday morning went apparently insane, making two attempts to kill himself during the day.

He first drank lye, which he grabbed from a washerwoman, and, failing to kill himself this way, jumped into the river, from where he was rescued with some difficulty.

HAIR NATURALLY ABUNDANT.

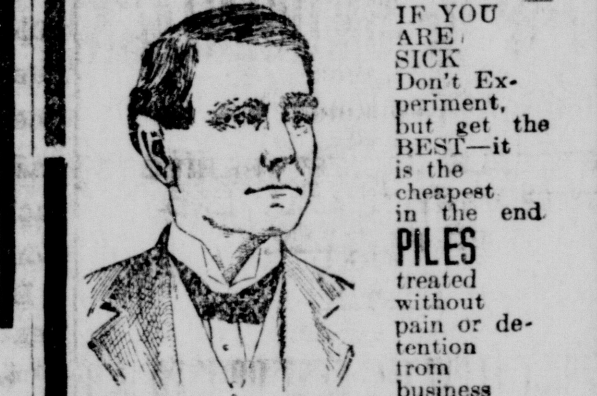

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly, makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. MAN RAISED HIS GUN

To Kill Autoist, Who Just Grazed Him, and Walker Fell Dead.

Shelby, N. C., May 21.—While in the act of firing a shotgun at an auto, which had just grazed him, John Walker, a prominent planter, yesterday dropped dead in the public road. It is supposed heart disease caused his death.

Dr. T. E. McBrayer and family were in the auto, and when the physician saw Walker fall he went to his assistance, but the man was dead.

Walker was injured some time ago when an auto scared his horse and caused it to run away. He swore then he would kill the next autoist who dashed by him, and carried a shotgun continually.

Yesterday Dr. McBrayer rushed past Walker, almost striking him, and he raised the gun to shoot, but death prevented.

WRONG SYSTEM IN PORTUGAL

Land Cut Up Into Portions on Which Comfortable Living Cannot Be Made.

The Portuguese are an extremely conservative people. Every man follows rigidly the methods employed by his father and forefathers. In very many parts of the country the old wooden plows are still used.

When a man dies instead of one of the heirs taking the whole property and paying the remaining heirs for their parts the whole property is divided into as many parts as there are heirs. More than this, each separate part of the property is thus divided.

Thus if a property consisted of ten acres of pasture land, 50 of vineyard and ten of grain land, and there were ten heirs, each heir would receive one acre each of grain and pasture land and eight acres of vineyard. This process has been going on for a very long time, so that now in the most fertile part of Portugal the land is divided into incredibly small portions.

The immediate result of this, according to the United States consular reports, is that the product of the land is barely sufficient at best to sustain its owners. South of the river Tagus, on the other hand, there are enormous tracts of excellent land lying unused, but it has been found impossible to induce the farmers of the north to move into this region and take up large holdings.

For Nose Bleed.

For obstinate and persistent nose bleeding either put an ice pack or a cloth wrung out of ice water at the back of the neck just at the base of the brain, or drop cold water from a sponge held well above the head so that it will strike the crown of the head with considerable force.

The head should be kept well elevated; even in cases of extreme weakness do not allow the patient to lie down, and small wads of absorbent cotton wet with a weak solution of carbolic acid should be used to plug the nostrils.

If the arms are held above the head five or ten minutes the bleeding, if not severe, will usually stop.

His Business Ability.

In the Adirondacks lives a man too lazy to work, but evidently of great business ability. One winter, when he was sitting around smoking, his family came so near starving that some of his neighbors, who could ill afford to help him, took up a collection and bought for the suffering family a barrel of flour, a barrel of pork and a load of wood. They were not considerate enough to cut the wood, but the business man knew how to manage. He hired some of his neighbors, who had not contributed to his donation, to cut the wood, and paid them with half the pork and half the flour.—Lippincott's.

Shingles from a Tree 1,100 Years Old.
A lumber company at Buckley, Wash., recently sent out a number of souvenir shingles that were cut from a tree 1,100 years old.

The tree from which the shingles were cut had 350 rings, which fact denotes that it was 350 years old when it fell. The stump of a tree which grew over it had 750 rings, and as this could not have started to grow until some time after the first fell, it is practically certain that the original tree was thriving in A. D. 800, which was 700 years before the discovery of America.—Popular Mechanics.

HAS THIS TOWN FIREBUG?

Three Arrests Follow Six Incendiary Blazes There.

Chillicothe, Mo., May 21.—Following six fires of incendiary origin, which have caused a total loss of \$50,000 here within the past two weeks, three young men were arrested last afternoon and held for investigation.

The fires have all occurred about 8:30 in the evening. All were started in the same manner and all have been within two blocks of the square in the business heart of the city.

The latest of these fires occurred Wednesday night, when an attempt was made to burn a large veterinary hospital.

The cause of many sudden deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address: Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

FOLK APPOINTEE RESIGNS

Police Commissioner Too Partisan in Appointments.

St. Joseph, Mo., May 21.—James H. McCord, president of the St. Joseph police board, a Folk supporter who had hopes of retaining his hold on the police department during the administration of Governor H. S. Hadley, has tendered his resignation, to take effect at the pleasure of the governor.

The claim is made that McCord insisted upon continuing to fill the police ranks with democratic appointees, and out of twelve men named at the meeting of the board Monday night the republican member, ex-Congressman Frank B. Fulkerson, was given only four men.

TRAP WHITE SLAVE PREY

PROCURERS INFEST WAITING ROOMS IN BIG DEPARTMENT STORES.

COURT COMMITTEE'S REPORT STARTLING

Shows That Women Who Betray Their Sisters Are Numerous and the Hardest to Convict in a Court of Justice.

Special to the Democrat-Sentinel.

Chicago, May 21.—Startling arraignment of the big department stores of Chicago for the recruiting for white slavery in their waiting rooms is contained in a report of the juvenile court committee as a result of careful investigation covering several weeks. Conditions are found so bad that a free employment bureau for girls and women has been opened, where they may escape their tempters when their empty purses make temptations strong.

The report declares women are among the worst offenders against their sex, and throws a new light upon the pitfalls spread for needy girls in big cities. The report transmitted to the committee appointed to conduct its systematic campaign against the white slave traffic stated that investigation was confined to the nine largest department stores; that during the investigation sixteen arrests were made, fifteen men and one woman, and all sixteen convicted.

"The first thing which was noted during the visits," the report declares, "was that the waiting rooms in the stores, particularly those which were large and comfortable, were being used by a number of unemployed girls. In one of the waiting rooms at one particular time there were seen forty-eight girls ranging in age from 14 to 20. A large number of these girls seemed to be continually studying the want ad columns of the newspapers. Many girls were there alone, and spent the entire day without food."

"In all of the big waiting rooms there was a constant stream of men, particularly before we were very well known, who seemed to be always looking for some one. All sorts of schemes were used by them to get the girls into conversation. A very common way of starting was to offer a girl a newspaper. When you know that many girls come to these rooms without even a penny with which to buy a paper and sit and wait in the hope that some one will be forgetful enough to leave a paper which will tell where to find work, one can see how effective this simple method of starting acquaintance is."

"It frequently happened that two men came together, or even three. As we learned after a time, the men who were making a business, that is, the professionals, usually went in this way in order to better protect themselves. These men were usually of the flashy dressed type and not infrequently affected the college boy style of dress. Often the pal of the 'smart boy' was of the demure sort—the kind that was just being initiated. However, when these men were tried in court it was usually discovered that the demure one had the longest police record."

"By far the most difficult procurer to catch was the girl or woman procurer. Only one woman of this type were we able to capture."

To illustrate the work of the women procurers the case is cited of a young girl of 16, very beautiful and well developed, who was discovered by a Minnie Jackson, a patron of the store who seemed to have plenty of money and flattered the girl by invitations to lunch, to the theater and finally to lunch with a young man, a "swell." Then the report concludes:

"Three months after Margaret first

met the Oak Park swell, Inspector McCann, of Desplaines street station, took her from a disreputable house at 58 Carpenter street. An effort was made by Judge Wells, Inspector McCann and myself to get her away from her new friends. We were unsuccessful.

"After watching these stores for days at a time, the following conclusions have been reached:

"1. The waiting rooms of the large stores furnish an opportunity for the procurers to ply their trade and this opportunity is not being neglected.

"2. Girls are frequently taken from among the clerks, but as they are better protected, at least in the majority of the stores, by managers through the co-operation of their floor walkers, this is probably less done.

3. Any large public waiting room, as for example, the railway station waiting room, is probably used for the same purpose as the store waiting room by the girls out of employment, and these girls are subject to the same risk."

IRISH BLOOD IN DIAZ LAND.

Many Mexicans Found with Red Hair and Real Hibernian Brogue and Names.

"The Mexicans are a dark-skinned race, but in the crowds of idlers who watch the passing train at every railroad station you will be sure to see one or more faces of truly Irish cast, surrounded by shocks of touseled brick-red hair," said a man who had just returned from a long trip through Diaz's republic. "The reason for this isn't far to seek. When the Mexican railroads were built, twenty or thirty years ago, it was an army of Irish laborers who dug the dirt, laid the ties and spiked down the steel. They mixed with the native population, naturally, and the red-headed hybrid with a pug nose and perpetual grin is the result."

"I remember one place in particular where I saw one of these carrot-topped Irish-Mexicans who had such a Hibernian face that I felt sure at once he must be an exile from Erin who had gone broke in the land of the Montezumas. It was at a station called Apizaco, on the Mexican railway—the line that leads from the capital to Vera Cruz, a road that was built by an Irishman who grew rich and became a Mexican citizen. This man was selling gaudily painted and carved canes, for which this station is famous all over the country. He was dressed in the usual two-piece suit—loose blouse and trousers of white cotton, ragged and dirty. His red head was covered by a tattered straw sombrero, and his feet were bare—like all the other peons. When he came up to me with his canes I spoke to him in English. He grinned at me and replied in Spanish that he did not understand. So I went back at him in Mexican: "Aren't you Irish? What is your name?" I asked.

"Si, senor," he replied in the formal Spanish phrases that even the Indians there use, "my name is Innocente Jesus O'Rourke." And he said it, with

a brogue that, aside from his looks, was his sole ancestral inheritance."

COURTESY ALONE WILL NOT DO

Old Negroes of the South Are Extremely Polite, But Woefully Incompetent.

When the southern woman opened the door in answer to the bell the old colored man bowed and smiled, and said softly in the courteous southern brogue: "I've come fo' the cloes. Bertha done sent me."

The southern woman sighed as she looked at him. "Tell Bertha I'm sorry," said she, "but I've given my clothes to a white woman. Bertha is so nice. She has washed for me for four years, but she kept the clothes so long and she got them so blue I had to change. I'm sorry."

The old colored man, how worn his clothes were! bowed again. "That's all right," he said; "that's all right. I'll tell Bertha. She'll be sorry, too. Bertha will. She's been washing fo' you so long. Bertha'll be vey' sorry."

The southern woman shut the door and came into the room, standing still awhile, thinking. "So courteous," she said. "The only genuine courtesy in the world, I think, is among those old negroes, but so incompetent. They are bound to be weeded out. And still you can't help being sorry. And I suppose nobody will believe that the people who are sorriest to see them supplanted by the bristler white servants are the southerners."—Washington Star.

'Man and His Dog.

He lies in front of me curled up before the fire, as so many dogs must have lain before so many fires. I sit on one side of that hearth as so many men must have sat by so many hearths. Somehow this creature has completed my method; somehow, I cannot explain why, a man ought to have a dog. A man ought to have six

legs; those other four legs are part of him. Our alliance is older than any of the passing and priggish explanations that are offered of either of us; before evolution was, we were. You can find it written in a book that I am a mere survival of a squabble of anthropoid apes, and perhaps I am. I am sure I have no objection. But my dog knows I am a man, and you will not find the meaning of that word written in any book as clearly as it is written in his soul.—G. K. Chesterton, in London News.

Teaching Nothing.

Dr. Howe, president of Case school, Cleveland, never fails to express his vexation when he has a student call the zero of mathematics nothing. One of the students, Morgenthau by name, would almost invariably read an equation like this, x plus y equals 0, as follows: "X plus y equals nothing." One day Dr. Howe lost his long-enduring patience. "See here, Morgenthau, let me show you the difference between zero and nothing."

With this Dr. Howe wrote a big 0 on the blackboard. "This," he said, "is zero." Then erasing the 0, he added: "And this is nothing."—Lippincott's.

Circumstances and Cases.

"I want you," said Mr. Dustin Stax, "to show that this law is unconstitutional. Do you think you can manage it?"

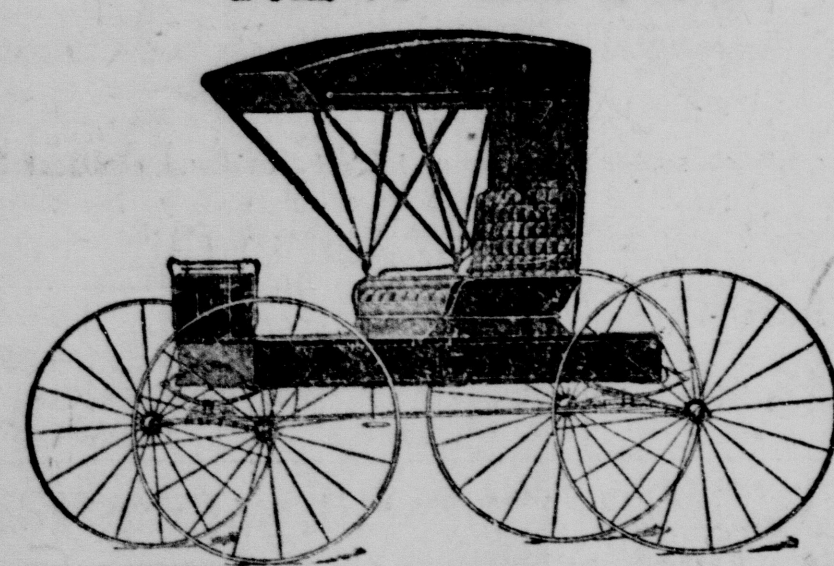

"Easily," answered the attorney. "Well, go ahead and get familiar with the case."

"I'm already at home in it. I know my ground perfectly. It's the same law you had me prove was constitutional two years ago."

TOUCHED HEART OF MARSHAL

New York Server of Eviction Papers Moved by Tragedy of Which He Was Chief.

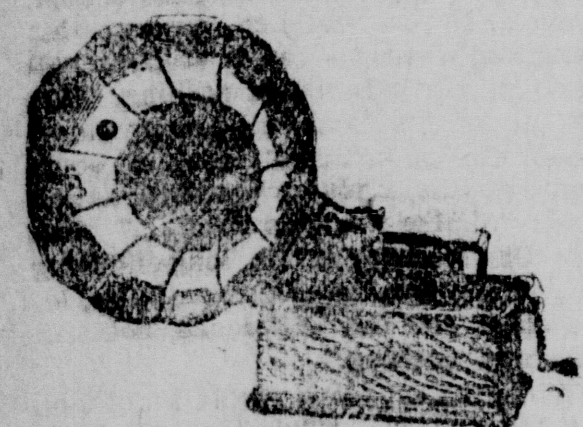

Thirty little children sat on cheap wooden benches in the second-story room at 11 Suffolk street the other day. Every one of them was ragged. Most looked as though they had not had enough to eat. But they were bright-eyed and alert and not for a moment did their attention stray from the white-bearded old rabbi who was teaching them Jewish prayers, although the sneaky little pictures on the walls and the myriad of noises of the roaring East side street must have been a constant temptation. And then the door opened and City Marshal Lazarus stepped in, dispossessing warrant in hand, says the New York correspondent of the Cincinnati Times-Star. The

struggling little congregation of the synagogue hadn't been able to pay the rent. Their few pennies were needed to keep their own roof trees and give their little ones a meager fare. The old teacher stood silent, with bowed head, as the poor furnishings were ripped from the place and stacked in the street below. Tears trickled down his beard. The children carried the tidings through the squalid neighborhood and in a moment the street was choked with shrieking, gesticulating, weeping men and women. They begged the marshal's men for mercy. As each bit of the poor furnishings appeared they redoubled their outcries. The rabbi, no longer erect and venerable, but a poor, old, grief-stricken man, his eyes red with tears, his hands shaking, moved among them, trying to repress their emotion. Marshal Lazarus was moved by the agony of this, perhaps the most poverty-stricken congregation in all New York. He went to the old rabbi and handed him a little money. "That's to keep you going for a few days," he said kindly.

The old man accepted it. "But it is for my people," he said proudly. "Myself, I can starve. But who will watch my little children here?"

Family Wealth to Our Children.
The power of perpetuating our property in our families is one of the most valuable and interesting circumstances belonging to it, and that which tends the most to the perpetuation of society itself. It makes our weakness subservient to our virtue; it grafts benevolence even upon avarice. The possession of family wealth and of the distinction which attends hereditary possessions are the natural securities for this transmission.—Burke.

QUESTION IS PURELY A MORAL ONE

Claims That the Plan to Legislate Men to Be Good Has Failed Ever Since the First Parents Violated Creator's Law.

Peoria, Ill., May 21.—Arguing along the lines that prohibition does not prohibit, Mayor David S. Rose, of Milwaukee, met Dan R. Sheen, former prohibition candidate for governor of Illinois, before 2,000 people at the Coliseum here last night on the negative side of the question:

"Resolved, That prohibition as applied to the manufacture and sale of intoxicating beverages is right."

In calling the meeting to order Fr. Jeffords said:

"There is no better city for its consideration than Peoria, as this city is noted for the manufacture of high wines, and when financial conditions are normal Peoria pays as much as \$38,000,000 per year revenue; about one-sixteenth of the entire expenses of the United States, coming from this district."

The local advocate of cold water opened the debate with an address of one hour. He urged the protection of the homes, of the schools, of the churches and of the rising generation against the evils of the liquor traffic. Half the criminals in the penitentiaries, he said, were there through the effects of alcoholic stimulants.

The Almighty established prohibition first in the Garden of Eden, the speaker maintained, when Adam was prohibited from eating an apple. Since that time prohibitory legislation had been passed and was more or less effective.

Mayor Rose urged that the Almighty's mandate regarding the apple did not prohibit Adam from eating it, and argued that since that time the laws against intoxicating beverages had been no more effective.

The Milwaukeean quoted Scripture to support the theory that Noah had been a drunkard after leaving the ark; that the Savior drank wine as a beverage and that down through the succeeding ages wine had been manufactured and had been drunk.

He referred at great length to the failure of the army canteen bill, and in this connection said:

"You can never legislate men into morality, and this whole question of temperance and of prohibition is a moral question."

Continuing along these lines, Rose said: "From 1850 to 1860 seventeen states were under prohibition; they tried the experiment and all of them abandoned the attempt."

"Alabama is a dry state; criminality has been increasing since prohibition became operative. Last month there were twenty-three murders committed in the city of Birmingham."

Milwaukee last year had but 558 arrests for drunkenness, Columbus, Ga., a dry city, one-tenth the size of Milwaukee, had 1,096 arrests for drunkenness, and the speaker compared many wet cities with dry ones along the same lines.

Speaking of regulation of saloons, he said: "In Milwaukee we regulate. There is the solution of it all."

Taking up the question from the economic standpoint, he said: "Last year the industry paid into the federal treasury \$223,000,000; it paid labor \$56,000,000, and it paid to the farmers \$109,000,000. Two million five hundred thousand mouths were fed."

He closed as follows: "So long as the government undertakes to rule moral conduct by force, so long will the spirit of American manhood assert itself and rebel against an unjust interference with the liberty which belongs to us under the guarantee of our constitution."

MRS. GOULD'S DIVORCE

CHILDREN TO BE WITH MOTHER SIX MONTHS AN DFEATHER A LIKE TIME.

NO ALIMONY PROVISION MADE IN CASE

Name of No Co-Respondent Mentioned by Her Referred To—Wealthy in Her Own Name, and Needs No Assistance.

New York, May 21.—Helen Kelly Gould was granted an interlocutory decree of divorce yesterday from Frank J. Gould by Justice Gerard in the supreme court.

The decision was rendered on the report of Edward J. Whitaker, as referee, who decided that the charges against Gould had been proven.

Mrs. Gould is allowed the sole custody of the two children, Helen Margaret and Dorothy Gould, from December to April, both inclusive, and the defendant may have them from May to November, subject to certain modifications. The defendant is held responsible for their education and also for their medical attendance.

No provision is made for alimony, nor is the name of any co-respondent mentioned by her referred to.

After setting forth that the material allegations in the complaint have been established, Justice Gerard says in his order:

"And it appearing to the satisfaction of this court that the defendant has been guilty as charged in the complaint, it is ordered and decreed that the said motion be granted and the report of the referee confirmed in all respects and the marriage dissolved."

The Goulds were married in this city on Dec. 2, 1901. Mrs. Gould is a daughter of the late Eugene Kelly,

the banker, and is wealthy in her own right, having inherited a large fortune.

THE UNITED STATES IN 2009.

Student's Idea of the Changes That Time and Thought Are to Bring About.

What will be the destiny of the United States?

The answer to this can be supplied immediately by a comparison with the Roman empire. The establishment of Constantinople as the capital of the east, and the eastern empire's separation from Rome, are paralleled in the story of the American revolution. We may look, then, for a progressive decline in the strength of England, in inverse ratio to our own increasing power; Australia, already American in her political organization, will gravitate, with Canada, into the union; finally the English-speaking peoples will be reunited under American auspices. That is as far as we can look forward legitimately.

America will be absorbed in the solution of her social problems. Democracy, which has never really existed, will be coming into its own; and with its advent will disappear the comedy of representative government which, tried out through several centuries in the classical world, and found wanting, is destined to receive its coup de grace upon American soil.

The battle of socialism will be upon us, to be solved, probably, after some considerable bloodshed, by a sudden illumination of common sense. The loose, haphazard productive methods of to-day, and our costly and faulty

manner of distribution, will have to be organized to prevent their complete breaking down.

The solution of this tremendous problem, which will be precipitated by the sudden failure of foreign markets when manufacturing and prohibitory tariffs are universal in all countries, will occupy our attention for at least a century to come.

By the year 2009, therefore, no radical changes will have occurred upon the map of the new world.—Henry Paradyne, in Harper's Weekly.

TRUE TO HIS HIGH CALLING.

Act of Gifted Physician Reads Well in These Days of Struggle for Filthy Lucre.

Many anecdotes are told of the kindness, as well as skill, of the late Dr. W. T. Bull, whose loss is not only regretted by New York's "400," who knew his ministrations there and at Newport, but by the poor as well. An acquaintance tells this true story as typical of the man: "Shortly before he was stricken with his fatal illness a young East Side physician called at his office and said that he was attending a poor girl over in his neighborhood who would surely die unless operated on. The family was too poor to pay and the doctor did not feel that he was equal to the operation. Would Dr. Bull give him a little advice as to how to proceed?"

"Well, I guess he had better go and take a look at the patient," said Dr. Bull, putting on his coat. "They found the patient in an East Side tenement, and in less time than it takes to tell it Dr. Bull had the room cleared and began the operation. When he was leaving the father of the girl met him in the hall and forced a quarter into his hand. Dr. Bull thanked him and went off feeling as happy—happier than if he had received a \$1,000 fee. The girl got well."

J. M. Licklider warrants beautiful "S" and Vigor flour.

Always Enjoyable.

A recent visitor at Matteawan was strolling about the grounds when he encountered a stately and well-dressed gentleman, who inquired with perfect courtesy: "I beg your pardon, but have you any dry toast about you?" The caller intimated that at present he was without that particular form of light luncheon. Then in his turn he queried: "But would you mind telling me why you desire it?" "Not at all," responded the other. "You see I'm a soft-boiled egg, and I want to sit down!"

Sixty-Year-Old Woman Tossed Torn Bills From Car Window.

Omaha, Neb., May 21.—Mrs. Bertie Nelson, a woman 60 years of age, who had come from Anson, Minn., and was on her way to McPherson, Kan., to visit relatives, was taken off a train here yesterday and placed in the matron's room of the city jail. A physician pronounced her temporarily insane and she will be held till relatives can be located.

When taken from the train she had \$4.00 in currency on her person. She was tearing up the bills and throwing the fragments out of the window.

Wedding Month in Germany.

In Germany the month of April is the chosen time for weddings. One must, however, be careful to select a lucky day for the event. The lucky days, so say those who know, are the second, fourth, twelfth and twenty-second. The unlucky days are the seventh, eighth, tenth, sixteenth and twenty-first.

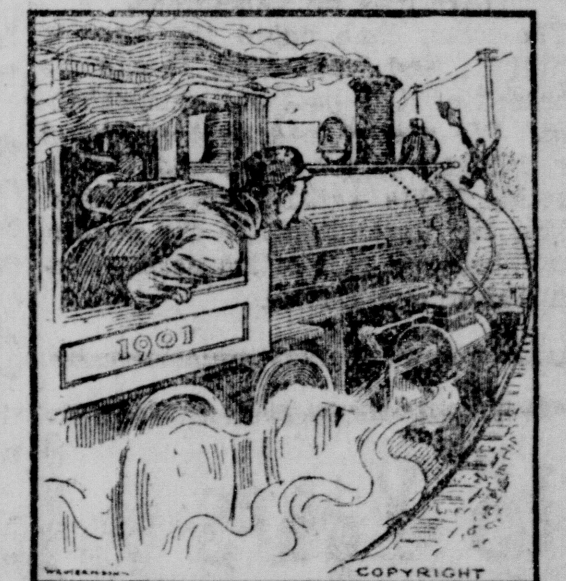

PAIN

Pain in the head—pain anywhere, has its cause. Pain is caused by blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasantly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Brace your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense. We sell at 25 cents, and cheerfully recommend

RUMBLINGS OF THE RAIL

SWITCHMAN WAS KILLED JUST AS HE WAS PLANNING TO VISIT HIS WIFE.

COACH CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources For the Benefit of Democrat-Sentinel Readers.

Planning to meet his wife and little daughter in Topeka, William Philbin, a switchman in the employ of the Kansas City Southern railroad, residing at 27 Central street, Kansas City, Kas., was killed by being crushed between two freight cars in the yards at Second and Oak streets in Kansas City, Mo., yesterday.

The body, much mutilated, was removed to O'Donnell's undertaking establishment, where it will be held pending the arrival of his wife from Topeka.

The fact that Philbin was to have visited his wife and daughter that evening, was discovered by letters in his pocket. He was to have finished the day's work and then would come the trip to Topeka.

Four Roads Were Fined \$9,700.

Four railroads upon pleading guilty were fined \$9,700 by Judge Dyer in the United States district court in St. Louis yesterday for violation of the interstate commerce law, providing cattle be taken from cars every twenty-eight hours and fed.

The railroads fined were the St. Louis, Iron Mountain & Southern railroad, \$1,200 on thirteen counts; Terminal Railroad association, \$7,600, on seventy-six counts; Wabash railroad, \$100 on one count, and the Missouri Pacific, \$700, on seven counts.

THAT STRIKE EXTORTION

Witnesses Said "Skinny" Madden Settled One Walkout for \$200.

Chicago, May 21.—The state finished the presentation of direct testimony against "Skinny" Madden and others, charged with conspiracy to extort money in the settlement of strikes, yesterday. Witnesses told of a strike which was settled for \$1,500 and of another which cost \$200.

The \$200 strike was called, it is alleged, on a building being constructed by Samuel Grossman. Solomon L. Lowenthal, Grossman's attorney, testified that he and his client called on F. A. Pouchot, who, with M. J. Boyle, is a co-defendant in the case, following a demand for \$200 to settle the strike.

"We found him in a little room in a saloon," the witness said, "and I asked him why he had asked for money. He said he was not fool enough to talk to both of us. Then he walked away. The next day Madden took me to a small room under the stairs of the saloon when I handed him \$200. He said work would be resumed on the building the next day. This was done."

"BULLY" LUCK FOR "TEDDY"

Up to the Present Time Has Secured Sixty Specimens.

Nairobi, British East Africa, May 21.—Theodore Roosevelt and his son, Kermit, are having good hunting luck on the Ju Ja ranch of George McMillan.

Their bag includes a water buck, an impala and other varieties of antelope. All the skins are being saved entire and the expedition has now a collection of sixty specimens. The female rhinoceros that Mr. Roosevelt shot last Sunday charged him viciously of her own accord before he had fired his first shot. Mr. Roosevelt has killed also a python.

Kermit on a recent trip dispatched a leopard at a distance of six paces. The animal had mauled a beater and was charging Kermit when he fired the fatal shot.

SALOON THOUGHT NO. 149.

"I believe in regulation." You often hear people say, "I believe in regulating the saloon." Just as long as unprincipled men can get a license to sell liquor, as long as drunkards and drunk men can obtain drink, as long as saloons are connected with gambling houses, as long as the saloon remains the gamblers' den, as long as the saloon becomes a gallery for indecent pictures, as long as the saloon remains the rest room and business hall for the thugs, crooks, harlots, etc., as long as the saloon dabbles in politics and corrupts the church, as long as the saloon sells to minors, or men who become a public nuisance, just as long as they appoint our police and city officials, just as long as they boycott an honest man for expressing his desire at the ballot box, just as long as they corral the criminals and vote them like sheep, just as long as they pay the crooks "for services" the day after election, and just as long as the saloon is the breeding place of the most rotten of politics, just that long is the SALOON NOT REGULATED.

Tell us of any saloons that are regulated. You can't do it. THE DRYS.

CONVICT HIDING IN PRISON

Guards Unable to Find Negro, Missing Eighteen Hours.

Columbus, Ohio, May 21.—Somewhere within the walls of the penitentiary Harvey Johnson, a life prisoner, who was received a few days ago from Franklin county, is hiding. For eighteen hours the penitentiary officers and guards have been searching for him, and twice during the night he was seen.

One of the wall guards said he saw Johnson stick his head out of a bolt-shop window and the guard fired. The bullet was afterwards found imbedded near the window. Capt. Krouse, of the guard room, also saw the little negro, but was unable to capture him on account of the darkness.

The entire floor in bolt shop No. 6, where the desperate colored man

worked, was ripped up and traces were found of Johnson having crawled beneath the floor.

Warden Jones has issued orders to the guards to shoot to kill if Johnson does not voluntarily give up.

MISSISSIPPIAN IS WANTED FOR MURDER

After Twenty-Five Years Thomas Atkinson Is Discovered—Grabs Rifle and Takes to Woods, Defying Arrest.

Noxapater, Miss., May 21.—A story in truth that is stranger than fiction has been turned up here in the life of Thomas Atkinson, who is barricaded in the woods, defying the sheriff of the county and his posse and thirty of the militia.

Atkinson is wanted for murder committed in Mississippi more than twenty-five years ago, and for which he was once sentenced to life imprisonment in the penitentiary.

He escaped within a few weeks after being committed and has since led a respectable and exemplary life. He has raised a family and become a prosperous farmer.

Now that his identity has been suddenly revealed, all the old darlings have returned. The authorities believe that he is desperate and will perhaps die before allowing himself to be taken, and perhaps kill as many of the officers as possible.

Detective R. C. McKay is responsible for the charges brought against Atkinson. He was working on another clue. The authorities had long since give Atkinson up as lost, when he suddenly ran upon evidence in the man's life which aroused his suspicions and led to an investigation.

At once Atkinson was apprised of the suspicion he took his rifle, and, going to the woods, defied the authorities, refusing to submit to arrest or interrogation.

At a late hour last night he had not been captured. He is surrounded, however, in a dense thicket, and his capture is but a question of time, although for the moment it is not deemed safe to rush him in his hiding place.

Asks the State to Kill Him.

St. Paul, Minn., May 21.—Because there is no foodstuff that he can eat or drink and retain in his stomach,

Dr. T. L. Hatch, of Owatonna, Minn., has requested his attending physician, Dr. W. C. Roberts, of the same city, to apply to the health board for legal authority to put him out of the way.

The slayer was arrested twenty-five minutes after the shooting and is in jail.

REV. TOOMAY, FORMER SEDALIAN, SPEAKS

Dr. Magoon Says in St. Louis Talk That Liquor Interests Have Stolen Slogan—Wants Abstinence as Slogan.

St. Louis, Mo., May 21.—Although assembling "not as victors," as Rev. J. B. Toomay, formerly pastor of the Second Congregational church of Sedalia, put it, the District W. C. T. U. found much to be thankful for at its twenty-fifth annual meeting yesterday in the Fountain Park Congregational church. Mrs. E. B. Ingalls, the president, advised the resolutions committee that the convention ought to give a vote of thanks to Representative Killian, the author of the prohibition amendment bill in the house of representatives, and to Senator Booth, "that dear old man who votes right every time." This committee will report today.

Mr. Toomay, too, suggested that the women be not too hard on the legislators. "It was a wonder of wonders," said he, "that the amendment did pass the house by a splendid majority, and that it hung in the balance in the senate for weeks." The women did not know, he said, "what might have been the influences brought to bear" on the legislators. Mr. Toomay predicted telling results for temperance from the initiative and referendum in Missouri, and he believed not only Missouri, but Texas, Indiana, Ohio and Nebraska would go prohibition in five years.

"Not temperate, but total abstainers," was the ideal held up by Dr. Frank L. Magoon, of the Board of Education. He said that the liquor interests had stolen the word "temperate," and that "total abstinence" was the only expression strong enough for the supporters of temperance.

"People should be temperate in the matter of good tea, coffee or work, of recreation and what not. But in the use of alcoholic liquors people should not be temperate—they should be total abstainers," he declared. He expressed his desire that the children should be educated along total abstinence lines, and believed much is done in this way by women teachers. He said he wished to see the 23,000,000 school children of the nation trained along the line of the ideals which the W. C. T. U. represents, and that so far as he himself had the power in directing the policy for the 75,000 children of St. Louis, his voice would be raised in behalf of ethics and the moral ideals.

A point in contrast to this had been brought out at a preceding session by Mrs. Mae Kirkham, who told of an incident of a woman teacher in one of the city schools, who, by her principal's permission, had distributed Lincoln blotters and post cards, bearing temperance utterances of Lincoln among the school children. The German-American alliance, she said, got hold of one of the blotters and complained to the school board. Superintendent Blewett questioned the principal of this school, who admitted that he had not carefully examined the blotters and the post cards. They were then suppressed, although, as Mrs. Kirkham explained to the convention, they contained nothing but the words of Lincoln. "I wonder how long the German-American alliance will be permitted to say what does or does not come into our public schools," Mrs. Kirkham said.

Mrs. Ingalls, in her annual address, referred to the desire of the W. C. T. U. to have a police matron appointed to accompany police officers in making arrests of women. A request for such an official has been made to the board of police commissioners,

but refused. She warned her hearers that brandy chocolates are being sold to children in some candy stores, and that the police have said it is a matter for the pure food commission.

Mrs. M. E. Culbertson welcomed the delegates, and a response was made by Miss Mary Wilson. An address, "The Power of the Ballot," by Mrs. Alice Mulkey gave witty and well put arguments in favor of woman suffrage. Mrs. Mulkey is president of the Missouri Suffrage association. John B. Quinn spoke on "The Social Phases of the Work of Chief Attendance Officer. Miss Mabel Kennedy and Miss Addie Birkicht conducted devotions.

Officers are to be elected today. This evening the six ministers who went to Jefferson City in behalf of the prohibition amendment, will speak.

San Francisco, May 21.—Bishop Fabiano Landi, of the Franciscan order, accompanied by Father Antoninus Murphy, sailed today for China, to take charge of the missionary work

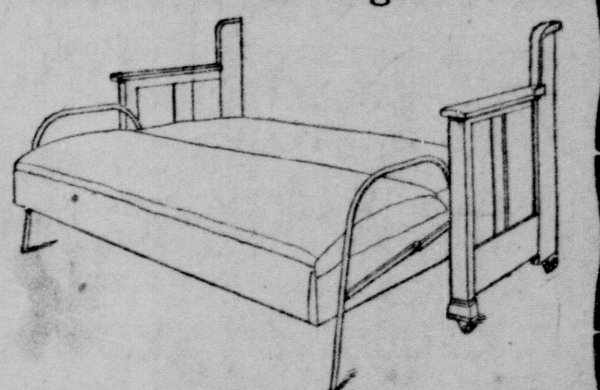

of the order in the interior of the dragon empire.

Bishop Landi was until recently stationed in Boston. It is feared that his new field of endeavor will be fraught with many difficulties and dangers, as the natives of Central China are said to be violently opposed to the teachings of all Christian missionaries.

YOU CAN CUT YOUR OWN HAIR

Use a Clipper, Attached to Any Electric Light Socket.

New York, May 21.—The man who cuts his own hair is going to have an existence outside the comic papers. Felix Brown, of Chicago, a member of the National Electric Light association, is the father of the new thought in hair removal, and when the organization of scientists meets at Atlantic City, the first week in June, the appliance will be tried for the first time.

The hair clipper is attached to a wire, the other end of which can be fitted into the socket of an electric lamp, and then operated at a fast or slow speed, according to the wishes of the hair cutter and the topographical peculiarities of the head to be shorn.

A feature is the ability to notch the clip for a short or long cut.

HAIR OR NO PAY

I will contract to grow hair on any bald head. No hair, no pay, providing the follicles are not destroyed, the pores open and the hair in sight. I do not claim to grow hair on a shiny bald head. I can tell by an examination of your scalp whether or not this can be done. Call at my private office and be examined free of charge.

If your hair is shiny bald and no hair on your head, save time and money by not calling or using my promoter. I will contract or guarantee to stop that itching, cure dandruff and stop hair falling in ten days, or no pay.

In this treatment I use the same as I ship to others all over the United States. Large bottles, \$2.00; or two for \$3.00; trial size, 50c.

Address all mail orders to Prof. G. Birkholz, German Hair Specialist, Room 721 Memorial-Bldg., St. Louis, Mo.

The above pictures show how bald I have been and as I now am. Out this article out. It entitles you to a free treatment and examination.

OFF TO THE NORTH POLE

WALTER WELLMAN, THE NEWS-PAPER MAN, MAKES STILL ANOTHER START.

BOUND FOR DANES ISLAND, SPITZBERGEN

Besides a Crew of a Dozen Men, the Arctic Carried All the Paraphernalia Necessary to the Hazardous Trip.

Christiana, May 21.—With the sailing from Christiana, Norway today of the new motor ship, Arctic, the first move has been made by Walter Wellman for another attempt to "dash" to the north pole in a dirigible balloon. The vessel, which was launched only this spring, is bound for Danes Island, Spitzbergen, which is to be the rendezvous of the Wellman expedition party. Besides a crew of a dozen men, the Arctic carried a score of foremen and mechanics and all the materials necessary for equipping the gas plant and supply post to be established on the bleak and barren coast of Spitzbergen.

It is said that the Chicago newspaper which financed Mr. Wellman's earlier pole-dashing expeditions, which expedited only in the newspapers, has tired of the game and the coming dash will be under Mr. Wellman's personal direction. The sinews of flight have been supplied by Americans who believe that the project is feasible and are backing the former journalist with all the necessary money. Mr. Wellman will spend some time in Norway before sailing for the rendezvous.

The balloon will start from Danes Island, Spitzbergen, in August, if the weather conditions are favorable. The airship will be the "America," which had a trial in a voyage of about twenty miles at Spitzbergen a year ago last September.

The owners have turned over to Mr. Wellman, free of charge, the airship, plant, building and machinery of Mr. Wellman's former enterprise. The America is the second largest airship, being about three-fifths the size of the Zeppelin. It has a lifting capacity of nearly ten tons.

If the America is able to start next August upon her voyage of 700 miles through the air to the pole, she will carry a crew of three men, 6,000 pounds of gasoline for the engines, food for a year, sledges, dogs, lifeboat, and all the requisites of a leaping party. One member of the crew will be Chief Engineer Vanman, an American, who was in charge of the ship's engines during her trial voyage in 1907. The third member has not been selected.

"The difficulty of getting a fair start with an airship designed to go to the pole is, of course, very great," said Mr. Wellman. "On account of conditions, it is impracticable to start effective work before the early days of June. The season is at an end in the last days of August. Actually the period of effective work is confined to about ten weeks. If delay or accident happens from any cause it may be necessary to postpone the voyage for another year."

"We have no settled conviction as to whether success is or is not awaiting us in case we are able to make a start this year. If this were an easy thing to do it would have been done long ago."

"We have from the first fully realized the magnitude of the task and have known that there were more chances for failure than for success in any given year, which is true of all polar efforts by any plan. We have had and still have faith that our method is practicable and more promising of results than any other."

AGONY OF ECZEMA BEYOND WORDS

Whole Body a Mass of Raw, Torturing Humor—Hair All Fell Out and Ears Seemed Ready to Drop Off—Clothing Would Stick to Bleeding Flesh—Hoped Death Would End Painful Suffering.

CASE SEEMED HOPELESS BUT CUTICURA CURED HER

"Words cannot describe the terrible eczema I suffered with. It broke out on my head and kept spreading until it covered my whole body. I was almost a solid mass of sores from head to foot. I looked more like a piece of raw beef than a human being. The pain and agony I endured seemed more than I could bear. Blood and pus oozed from the great sores on my scalp, from under my finger nails, and nearly all over my body. My ears were so crusted and swollen I was afraid they would break off. Every hair in my head fell out. I could not sit down, for my clothes would stick to the raw and bleeding flesh, making me cry out from the pain. My family doctor did all he could, but I got worse and worse. My condition was awful. I did not think I could live, and wanted death to come and end my frightful sufferings."

"In this condition my mother-in-law begged me to try the Cuticura Remedies. I said I would, but had no hope of recovery. But oh, what blessed relief I experienced after applying Cuticura Ointment. It cooled the bleeding and itching flesh and brought me the first real sleep I had had in weeks. It was as grateful as ice to a burning tongue. I would bathe with warm water and Cuticura Soap, then apply the Ointment freely. I also took Cuticura Resolvent for the blood. In a short time the sores stopped running, the flesh began to heal, and I knew I was to get well again. Then the hair on my head began to grow, and in a short time I was completely cured. I cannot praise Cuticura enough. I wish I could tell everybody who has eczema to use Cuticura. My condition was so terrible that what cured me cannot fail to cure anybody of this awful disease. If any one doubts the truth of this letter, tell them to write to me. Mrs. Wm. Hunt, 135 Thomas St., Newark, N. J., Sept. 28, 1908."

A "Square Deal"

For Women

It is often argued that women do not have an equal chance with men, because women suffer so much from pain and weakness. In a general sense, it is true that women bear more physical pain than men. However, the belief that women must suffer regularly, on account of ailments and weakness peculiar to their sex, has been successfully contradicted by the relief so many women have obtained by the use of Cardui, that great remedy for women.

Mrs. S. J. Kintner, of R. F. D. No. 2, Defiance, Ohio, tried Cardui and of her experience she writes: "I have taken six bottles of Cardui and have been greatly benefited. Before taking Cardui, I couldn't be on my feet half an hour at a time, but now I can work all day. I sleep well and the pain in my right side and lower limbs is all gone. I am in better health than I have been for five years. I shall recommend Cardui to all my friends."

What Cardui has done for Mrs. Kintner and other women, it surely can do for you. Try it once. Give yourself a "square deal." Cardui is sold everywhere, by all reliable druggists, with instructions for use.

Mr. Pigg stated that there was enough white sand rock on the farm to last one hundred years.

Some months ago some white sand rock was taken from the Swift quarry and shipped to Kansas City, where it was tested and made into brick.

The rock assayed at 87 1/2 per cent silica, which is said to be very valuable. The brick made from this sand were very nice, one brick was made sold enameled and looked like a gold brick.

Mr. Pigg and four brothers are now operating a plant at Barnett, Kas., that has a capacity of 30,000 brick per day. Mr. Pigg stated that if our local people would take an interest in establishing a plant here with him, one could be started soon. He said that the sand rock was too valuable to be left where it is.

HIGH PRICES FOR FOWLS

The Market at Present is the Highest in Many Years.

Chicago, May 21.—Live fowls, the kind that produce eggs for table use, are now selling in this city at the highest price paid in many years, according to statements of South Water street men.

Incidentally the famous Thanksgiving day bird—the turkey—is now at a discount compared with its smaller rival, the former selling at 15 cents per pound live weight, while live hens bring 16 cents.

This condition of affairs is said to be due to the unusually high price which has prevailed for grain during the last year and to the record breaking price of eggs, which, during the spring months, has been the highest ever recorded for the similar period in this market.

By virtue of authority of an order of sale in partition issued from the office of the clerk of the circuit court of Pettis county, Missouri, dated the 10th day of May, 1909, and to me directed in favor of Annie Perrin, William Henderson, Emma Henderson, Lou Johnson, Grant Henderson, Henry Henderson and Ella Johnson, plaintiffs, and against Josephine Henderson and Herbert Henderson, minor defendants, and it appearing to the court that the plaintiffs are entitled to the relief prayed for in their petition, orders that the real estate described in plaintiff's petition be sold by the sheriff of Pettis county Missouri, as provided by law in such cases. Now, therefore, in order to comply with the terms of said order of sale, I, the undersigned sheriff of Pettis county, Missouri, shall proceed to sell the real estate so ordered sold, lying and being situate in the county of Pettis, state of Missouri, and described as follows, to-wit:

The east half of the southwest quarter of section twenty-one (21) in township forty-eight (48) of range twenty-one (21) except five or six acres, more or less, off of the north end thereof, conveyed by J. K. P. Idol and wife to J. M. Jones by deed, recorded in book 17, page 49. And I will, on

Tuesday, the 1st Day of June, 1909, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon of said day, at the west front door of the court house, in the city of Sedalia, Missouri, and while the circuit court is in session, sell the above described real estate at public auction to the highest bidder for cash in hand, for the purpose of complying with said order of sale.

SEIZED FOR ALIMONY AT BIER

Man Too Late for Reconciliation—Warrant Awaited Him.

Springfield, Ill., May 21.—For failure to pay alimony ordered by the court, John A. Rule was arrested yesterday at the bier of his divorced wife, when he entered an undertaking establishment to view her body.

Several months ago, Mrs. Rule obtained a divorce and the husband was ordered to pay \$25 monthly for the support of the wife and children.

Recently Mrs. Rule made complaint to the court that he had failed to pay the alimony. A warrant was issued charging him with contempt of court.

The woman suddenly became ill and died. Rule came to Springfield to effect a deathbed reconciliation, but was too late. When he arrived Mrs. Rule had been dead several hours.

ODD FELLOWS FINISH WORK

Missouri Grand Lodge Devotes Day to Business

Springfield, Mo., May 21.—The Missouri grand lodge of Odd Fellows concluded a three days' session here last night.

The position of grand instructor in secret work was created, and the salary fixed at \$2,400 a year. The instructor was not named. Appropriations amounting to nearly \$18,000, covering the routine expenses of the grand lodge, were made.

It was voted to turn over to the Orphans' home at Liberty the funds remaining in the treasury after these expenses have been met.

Grand Master Bird announced the following appointive officers: Rev. A. Stirling, Smithton, grand chaplain; Oscar Johnson, Jefferson City, grand marshal; L. C. Cook, Maryville, grand conductor; Leo L. Lemon, Springfield, grand guardian; John W. Black, St. Louis, grand herald.

SETS JAGGED SPOUSE AFIRE

A Joliet, Ill., Woman Who Tried Unique Cure for Drunkenness.

Joliet, Ill., May 21.—Because Mrs. Frank Martinec tried to cure her husband of the drink habit by pouring gasoline over him and then lighting it, she is under arrest here on a charge of intent to murder. The woman says Martinec came home drunk every day. She could stand it no longer and bought a quart of gasoline, and as soon as her spouse stepped into the door she poured the oil over his clothing and while he stood sputtering, touched a match to it. Martinec had to jump into the canal to keep from burning to death.

Clothcraft is Almost Too Good To Be True

You must not judge CLOTHCRAFT CLOTHES by their low prices.

When we say \$10 to \$25 some wonder how CLOTHCRAFT CLOTHES can be as good as we claim.

This is where the famous CLOTHCRAFT GUARANTEE comes in. It is an absolute protection as to style, all-wool, shape-holding qualities, workmanship and durability.

But the Guarantee doesn't explain the low prices. And explanation is what makes belief easier.

Clothcraft Clothes

59 Years of Honesty

Here is the explanation: Three generations of honest men have devoted their lives to the study of one thing—how to make good, stylish, all-wool clothes that can sell at medium prices.

CLOTHCRAFT is the result of 59 years of scientific study of one idea.

These years have shown how to eliminate waste.

They have brought forth marvelous processes known to no other factory.

You Are the Gainer

They have seen the output grow until the cost of each individual garment has been reduced to a minimum.

Thus several dollars is actually saved in the cost of each and every garment.

And this saving is what pays for the better wools and better tailoring in these clothes. You are the gainer.

Remember

This is the only line of all wool clothes in America that sells at from \$10 to \$25.

OWL, MOCKED, PECKS WOMAN

Hospital Matron at Columbia Is Attacked by a "Wise Bird."

Columbia, Mo., May 21.—A screech owl does not like to be mocked. One made an attack on Mrs. Deborah Robertson Wednesday afternoon and bit her forehead. Mrs. Robertson is matron of Parker Memorial hospital. Her

wound was dressed by the house physician.

Mrs. Robertson saw two screech owls in a tree near by. She screeched in imitation of the owl. Down he flew. Another imitation, and this time he darted suddenly at her head and pecked in her face.

The blood spurted out in a stream. Mrs. Robertson hastened to a hospital.

TWENTY HURT IN A FIRE

GAS EXPLOSION IN A CHICAGO FLAT BUILDING IS FOLLOWED BY PANIC.

SEVERAL WOMEN LEAP FROM WINDOWS

Child Thrown Out of Second-Story Window and Escaped Unhurt—Mother May Die—Building Was Destroyed.

Chicago, Ill., May 21.—Twenty or more persons were injured, some of them seriously, by dropping from the second story windows in a fire starting from a gas explosion, which destroyed the Toledo flats, sixty-fifth street and Minerva avenue, here yesterday afternoon.

The first explosion occurred in the basement and was followed by others in various parts of the building. The flames burst forth in several quarters and the halls and stairways became choked with flames and smoke. Those in the building were thrown into a panic.

Mrs. E. C. Updegraff, who occupied a flat on the second floor, rushed to a window, holding her 4-year-old baby in her arms. Her screams attracted a crowd, who cried to her to throw the child and it would be caught. Mrs. Updegraff, leaning far out of the window, dropped her boy, who fell safely into a dozen upstretched arms. Mrs. Updegraff herself then climbed out, and after hanging to the edge, dropped. She was seriously injured and was taken to a hospital.

Mrs. A. Elmore, a third floor tenant, also was injured by dropping from a second story window. John Miller, janitor of the building, was in the basement. He was severely burned by the first explosion and was taken to a hospital. His condition is said to be serious.

Mrs. Catherine Carmondy escaped through the hall and was severely burned. She and an elderly woman, whose name could not be learned, and who jumped through a second story window, were taken to hospitals.

The explosion which followed that in the basement blew out nearly every window in the building, and with in half an hour of the first explosion the entire building was a mass of flames. Firemen were unable to check the fire and some of them narrowly escaped when the south and north walls fell.

NOTHING TO PAY

Hyomei Is Guaranteed to Cure Catarrh or Money Back.

When you suffer horribly from catarrh and are constantly sniffing and snuffing, hawking and spitting, and doing other disgusting things, remember there is a certain cure, called Hyomei (pronounced High-mee), which is guaranteed to cure.

Hyomei will give joyful relief to any catarrh sufferer in five minutes and it gives remarkable relief to consumptives.

Hyomei is medicated air prepared from the extracts taken from the giant eucalyptus trees of inland Australia, where catarrh or consumption are never known.

You breathe in this healing and antiseptic air through an inhaler and this air, with its peculiar soothing properties, passing over the inflamed and germ ridden membrane (for catarrh is a germ disease), kills the germ, allays inflammation, and in a short time completely cures the disease.

A complete Hyomei outfit, which includes a hard rubber inhaler that will last a lifetime, and a bottle of Hyomei costs only \$1.00, extra bottles cost 50 cents. Sold by leading druggists everywhere, and in Sedalia by the W. E. Bard Drug Co., who guarantee it on the money back plan.

A Refrigerator With Double Air Circulation

Look at this sectional view of a "Siberia" Refrigerator and see how superior it is to the common kind. See how the chilled air settles down through the center of the provision chambers, over and around everything stored in it, and then, when slightly warmed, rises on both sides, thus creating a double air circulation. This is a principle peculiar to the

"SIBERIA"

Refrigerator

and one which doubles its efficiency, because, the more rapid the circulating air current, the quicker food odors are carried to the ice chamber to be absorbed by condensing vapor and carried off through the drip pipe—something which is absolutely essential to the proper cooling and preservation of food.

The "Siberia" Refrigerator is built of choice northern ash, triple walls, air-tight and charcoal-lined, sides and bottom. Interior is zinc-lined and soldered. Trimmings are solid brass, nicked. Shelves are metal and adjustable. Castors are ball-bearing and self-retaining. Entire construction is solid and substantial. All in all, the "Siberia" is the most satisfactory refrigerator on the market.

MAJOR REPLIES TO SMITH

So Does Governor Hadley Take a Snap at St. Louis.

Jefferson City, May 21.—"A cold recitation from the record recited off on a railway phonograph," is the way Attorney General Major sizes up the speech made at a banquet Wednesday night in St. Louis by James E. Smith, president of the Business Men's league.

The attorney general says, among other things: "He doesn't want rates disturbed, for the reason that he had obtained satisfactory rates for himself, and oftentimes a banquet follows."

Again, he says: "If the roads help Smith, at the expense of the remainder of the people, it is all right with Smith."

AGED GROOM A BIGAMIST?

Broker of 72 Who Married Manicure Artist Aged 22.

New York, May 22.—A dark cloud in the form of a warrant charging bigamy has obscured the honeymoon of Samuel B. Wellington, aged 73, broker, who wooed and won Florence May Cushman, 22, a manicure artist, several weeks ago.

Mrs. Maude Windsor Gardner Wellington says Samuel married her in 1897. The publication of the wedding and wedding of the broker and the manicure girl caused Mrs. Maud Windsor Gardner Wellington to call on the district attorney and later the aged broker was arrested on a bigamy warrant.

BEES STING CHILDREN

Boy of Four and Girl of Two Upset Hive While at Play.

Bunker Hill, Ill., May 21.—Frightfully stung by bees, the 2-year-old daughter and 4-year-old son of Will Schmetz, living near Dorsey, are lying at the point of death.

While at play yesterday the children upset a beehive, and before they could reach shelter the insects swarmed about the helpless youngsters and attacked them viciously about the head.

No less than 200 stings were counted on each of the victims.

Mrs. Schmetz, hearing the cries of her children, ran to their rescue, and she was also frightfully stung.

The attending physician has no hope for the recovery of either of the children, their blood being so thoroughly impregnated with the poison.

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

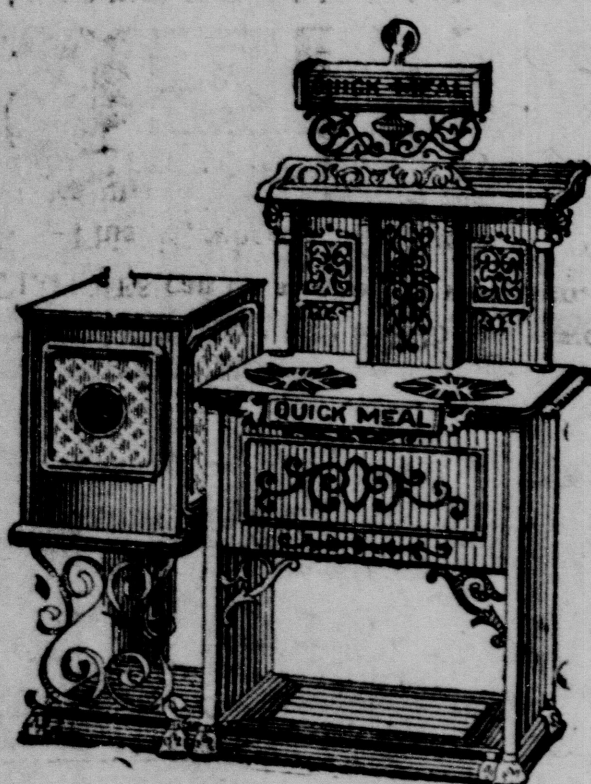

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for widowhood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good."

It is non-secret, non-alcoholic and has a record of forty years of cures. Ask YOUR NEIGHBORS. They probably know of some of its many cures. If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.
